The Clerk provided an update regarding work at the Swindon Road garden.
The garden had now been named “catching the moon” which is linked to a local Swindon tale. The parish had received quotes for an existing issue with an adjacent wall which had been previously reported to Swindon borough building control. Work had been started to underpin the wall which had been delayed due to weather conditions, When the building work is finished, the idea of a sensory garden had been suggested, and Cllr Kasmaty had spoken to local people to find out if they would be interested in supporting the garden when the parish had finished the building work and created a garden that was easy to maintain. The parish would like to include the garden in their 2020 In-bloom submission.

1090 Allotments Working Party

The Chair of the Allotments Working Party confirmed that quotes for fencing alongside Shrevenham Road had been received and are within the notional budget and would be brought to the next meeting, however the work will not be done until September 2020 due to bird nesting.

1091 Events Working Party

The Chair of the Events Working Party said that a meeting had been held regarding the parish parks bookings which had been made with Swindon borough council prior to the parish taking the parks over. The working party looked at the suitability of the parks and the Town Gardens and Queens park are thought to be subject to stress when large events are held. The use of GWR park for larger events was discussed as an option. The charges for use of the parks was low but all existing bookings will be honoured, and the Deputy Clerk will look into future costings. The Chair said that there was a need for a suitable booking form which will be discussed at the next Events working party meeting.

NOTED
